

BIOMEDICAL

RESEARCH INSTITUTE

ANIMAL TRANSPORT

Animal transport for research institutes is a specialised part of Jetpets operations.

Whether importing, exporting or moving between local institutions, Jetpets provides a fully comprehensive service for research institutes.

Our Special Moves Team are highly qualified industry professionals. They will manage your end to end requirements including:

- A competitive, all inclusive and tailored solution
- Source efficient routing to support animal welfare during transit
- Organise a door to door service in our temperature controlled vehicles
- Follow strict sanitisation and hygiene procedures pre and post transportation
- Be your airline delegate
- Confidential and efficient service
